## Be My Baby (The Ronettes)

```
Intro: C
/ // / //
First note to sing: C
Verse 1:
                          Dm7
The night we met I knew I ... needed you so
                            Dm7
                                                    E7
And if I had the chance I'd ... never let you go.
So won't you say you love me
                              D7
I'll make you so proud of me
We'll make them turn their heads
Every place we go.
     Chorus:
     (So won't you please)
                                     (Be my...)
                     Be my.... be my baby
     (Be my little baby)
                                     (Say you'll..)
                     My one and only baby
                       Dm7
     (Say you'll be my darling)
                       Be my... be my baby
     Be my baby now. Wo-wo-wo
Verse 2:
                         Dm7
I'll make you happy baby ... just wait and see,
                          Dm7
                                                      E7
For every kiss you give me ... I'll give you three.
                              A7
Oh, since the day I saw you
                              D7
I have been waiting for you
D7
You know I will adore you
'Til eternity.
```

```
Chorus:
(So won't you please)
                   (Be my...)
          Be my.... be my baby
(Be my little baby)
                    (Say you'll..)
          My one and only baby
           Dm7
(Say you'll be my darling)
          Be my... be my baby
Be my baby now. Wo-wo-wo-wo

I think I've put the overlaps in the correct places but it's difficult to work out a two part harmony with just one voice!
